

Hi. I AM RIZAN

Revitalizing software dev passion with new effort.

I'm making a transition back to the development field! With 4 years of digital marketing experience and a strong creative design background, I bring a unique perspective to web development. As a web developer, I can understand the technical aspects of development while creating visually appealing designs with a user-centric mindset. I am confident in my ability to excel in the software industry and invite you to review my resume. Feel free to message me for more details on my skills.
