

# Hi. I AM RIZAN

Revitalizing software dev passion with new effort.

With several years of experience as a web developer and a strong creative design background, I bring a unique perspective to web development. I have a proven track record of consistently delivering high-quality web designs that exceed client expectations, thanks to my keen eye for visually appealing designs and user-centric mindset. I am confident in my ability to excel in the software industry and invite you to review my resume. Please feel free to message me for further details on my skills.
